About Our Estimated Charges

In today's complex and ever-changing health care market, consumers are becoming more and more responsible for their own health care, including its costs. The estimated charges above are intended to provide you with information to help you make informed health care purchasing decisions.

The above estimated prices do not include charges for labor induction or epidural procedures. These prices are based on routine deliveries without any complications or additional services.

Please note that the estimated charges can be affected by a number of factors, including:

Your specific situation.

Your wage income.

Additional charges that may occur, depending on your situation include oxygen, suture, internal monitoring, rupturing membranes, vacuum extraction, to name a few.

Your bill may differ from the charges shown in these tables. These numbers reflect annual averages. Your bill reflects your use of services during your stay and the hospital's rates at the time of your admission. The average charge does not include physician professional fees.
